

Title

Welcome, DECIDIM

Strategic direction

Build a consistent experience

Is your proposal related to a problem?

According to new research from New Public, flourishing digital spaces ~~are~~ accel at 4 pillars: making people feel welcome, facilitating connections between people, helping people understand something, and giving people the chance to act. Decidim is best at ACT, enables CONNECT, struggles with UNDERSTAND, does almost nothing to WELCOME

Describe the solution you'd like

Upgrade homepage and landing page blocks to integrate the preferences and fields from the user.

~~Meta: use the taxonomy of the 4 pillars.~~

Describes in steps how it should work

Upgrade Last Activity to only show activity related to areas

a user has said they're interested in

Upgrade ~~calendar~~ meetings block similarly ↗

New block: welcome user by name

New block: crowdsourced blog posts the same way

we do meetings
